

Seasonal Change and Materials in the natural world: Let's go outside

What should I already know?

- The names of some types of weather.

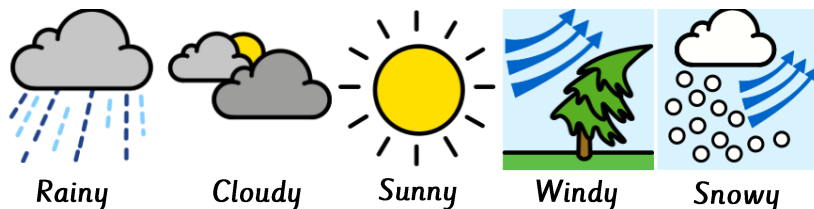

Key Knowledge

- To know that **Autumn** is a season.
- To talk about some changes in the natural world around them in **Autumn**.
- In **Autumn**, outside can be **wet** and **dry**. We need to wear a jacket or a coat because it usually feels **cold**.
- In Autumn, the weather is usually **rainy, cloudy, sunny, windy** and **snowy**. There may be some **ice** on the ground when it is really **cold**.
- Because it is usually **rainy**, the **mud** and **grass** on the ground is **wet**. It will feel **soft** and **sticky** to walk on.
- The **leaves** on some **trees** start to change colour and fall off. You will notice **leaves** on the ground.

Key Vocabulary and definitions

Seasons	There are 4 seasons in a year. Autumn , Winter , Spring and Summer . There are different changes that happen outside in each season.
Autumn	One of the 4 seasons. It is around the time when we start back to school after the summer holiday.
Weather	How it feels and looks outside. In Autumn , it is usually: cold, rainy, cloudy, sunny, windy and snowy .
