

What should I already know?

- How to make something out of clay.
- Have some experience of the process of design, make and evaluate.
- Know how to plan your project before making it and then create your ideas from your plan.
- How to discuss your ideas with a partner and evaluate it once it is made.
- Know the names of some materials we can use to decorate something that has been made such as glitter, sequins, paint.

Key Knowledge and skills gained

- I know that I can use the technique of making a clay tile.
- I can plan how I am going to make my clay tile and what it will look like.
- I can change the shape of clay by squashing, bending and rolling it.
- I can add and secure elements to my tile, using scratching and slip techniques.
- I can create a clay tile using my plan.
- I can think about and discuss what made my clay tile good and how I could improve it for next time. I understand that others opinions about my work can help me to improve and I can help others by sharing my thoughts on their work too.
