

Phonics Meeting

October 2022

What is phonics?

Phonics is a way of teaching children to read and write quickly and skilfully.

Children learn:

- The sound that each single letter makes;
- The sounds that different combinations of letters make - such as 'sh' or 'oo' or 'air'
- To blend these sounds together from left to right to make a word.
- To segment a word into separate sounds in order to write a word.

Children can then use all of this knowledge when faced with new words they want to read or write.
