# An overview to Restorative Approaches

## **Restorative Questions**

### **Active listening**

Fully concentrate on what is being said rather than passively 'hearing' the message of the speaker.

#### **Restorative questions**

Explore everyone's thoughts and feelings and take an incident from the past/present towards a future solution.

### Behaviour as communication

What is a pupil's behaviour telling us about their thoughts and feelings at any given time?

How can a better understanding of a child's thoughts and feelings change/influence my response to their behaviour?

The following questions are asked to each person in turn, usually starting with the harmer...

- What happened?
- What were you thinking/feeling at the time?
- What are you thinking/feeling now?
- Who's been affected by what happened and how?
- What do you/they need?
- What needs to happen to make things right?
